

The **Library OneSearch** search box on the library homepage is a great place to start. For a better search experience, click on the **Advanced Search** link under the search box.

Brainstorm some **keywords** that represent your research topic and use these keywords to search in the library. For example, if you want to find information about *how human resource managers use online resources to find prospective employees*, you could try searching with the keywords **"online recruitment"** and **"human resource management"**

Enter your keywords into separate search boxes. Using this example, your search could look like this:

Check the box for **Limit to Scholarly / Peer Reviewed:**

Limit to Scholarly / Peer Reviewed

Hit **Search** and review your results. **Time-saving tip:** Click on the magnifying glass icon  to the right of each title to view the **Abstract**, or summary, of each article to get a better idea of what the article is about. This will help you select the most relevant articles for your paper.

To view the full article, click on any of the links that say **Full Text:**
